

Dear Sir/ Madam,

Department of Botany is organizing a 3 day National Seminar on “Golden Jubilee National Symposium on Plant Diversity Utilization and Management during 27-28 May 2010. The brochure announcing has already been sent to you. However, there have been several requests from academicians /scientists from all over the country to extend the deadline for receipt of abstracts so as to submit the best possible findings for presentation. The Organizing Committee therefore is pleased to extend the date to April 20, 2010 as the last date for submission of abstracts. As well wisher of the University and as a friend of the Department of Botany, may I personally invite you and your students to attend the seminar? Kindly accept the invitation and respond as early as possible.

With best wishes and regards,

Yours sincerely,

Dr.N.Omanakumari
Chairperson, Organizing Committee.
